	Current role:	<b>Business Analyst</b>

### What three words best describe you?

### CAREER PROGRESSION

### What's one thing we don't know about you?

All things dancing – Ballet, Jazz, Hip Hop, Heels, Latin – you name it! Dance has been my passion since the age of 4. It's not just about moving to the music; for me, it's a constant stream of creativity, discipline, and self-expression. You might catch me seemingly lost in thought, but I'm often imagining the next choreography in my head.

### What is your career high to date?

One of my career highs to date has been the opportunity to lead an infectious disease/vaccine project, alongside managing direct communications with a leading pharmaceutical firm. Despite being in an entry-level role, I was entrusted with significant responsibilities, allowing me to grow professionally and make tangible contributions to the project's success. It was a challenging yet immensely rewarding experience, affirming my capabilities and providing me with invaluable insights into the pharmaceutical industry's inner workings.

### Why have you joined Lifescience Dynamics?

I decided to join Lifescience Dynamics for two compelling reasons. Firstly, the welcoming and family-oriented vibe of the Company culture stood out to me from the very beginning. Even before officially joining, interactions with team members, whether virtual or in person, conveyed a sense of warmth and belonging. Secondly, the vast opportunities working at the Company offers in the healthcare field with major industry players appealed to me greatly. I saw it as a chance to broaden my horizons, gain valuable market insights, and establish meaningful connections within my industry.

### What are the top three things you enjoy about being a member of the Lifescience Dynamics family?

- I enjoy meeting and collaborating with people from various backgrounds and cultures around the world.
- I find fulfillment in the projects we undertake which allow me to contribute to the industry as a whole, positively impacting it.
- I appreciate the opportunities for learning and advancing my career that Lifescience Dynamics provides through training programs, mentorship opportunities etc.

### What are you looking forward to in your next step with Lifescience Dynamics?

I'm looking forward to taking on more and bigger projects to further develop my professional skills and strengthen client relationships to further refine my communication and leadership abilities in a client-facing capacity.

### What would your advice be to someone considering joining the Company?

Seize the opportunity without hesitation!!! Be ready to embrace challenges and continuous learning, as they are integral to personal and professional growth here. Joining Lifescience Dynamics is not just about starting a job; it's about embarking on a rewarding journey of growth, discovery, and making a difference.
