- Seaton C, Hildebrand K, Pow A, Yang C. The phenotype of severe preschool asthmatics and their response to add-on therapy. Paediatric Child Health. 2017 Jun;22(Suppl 1):e37. doi: 10.1093/pch/pxx086.094. Epub 2017 May 26. PMID: PMC5804965.

What three words best describe you?

CAREER PROGRESSION

What's one thing we don't know about you?

I love history and traveling, especially when the two can be combined. Last year I saw the hot air balloons in Cappadocia, Turkey, followed by a trip a few hours away to the Bronze Age ruins of Hattusa, former capital of the Hittite Empire.

What is your career high to date?

My career high to date has been the successful management of multiple projects at the Company. I've fostered a positive work environment, pushing colleagues to excel while providing support and guidance, whilst simultaneously establishing strong relationships with clients. I've showcased adaptability by stepping into roles last-minute and effectively managing critical situations, demonstrating my readiness for higher leadership positions within the organization, all of which Lifescience Dynamics encourages and fosters in its employees.

Why have you joined Lifescience Dynamics?

I joined Lifescience Dynamics because of its reputation as a leading consultancy in the life sciences industry. I was attracted to the opportunity to work on challenging projects that make a real impact within the pharmaceutical space. The Company's commitment to employee development also aligns with my own professional values, making it an ideal fit for my career aspirations.

What are the top three things you enjoy about being a member of the Lifescience Dynamics family?

- I appreciate the supportive and collaborative atmosphere at Lifescience Dynamics, where colleagues respect and value each other's contributions, fostering a positive work environment.
- Lifescience Dynamics offers ample opportunities for professional growth and development, including mentorship and exposure to diverse projects, enabling me to expand my expertise.
- Being part of Lifescience Dynamics allows me to work on meaningful projects that contribute to advancements in the life sciences industry.

What are you looking forward to in your next step with Lifescience Dynamics?

I am eager to continue taking on greater leadership responsibilities, contributing to the Company's growth and success, building strong relationships with clients and colleagues, and leading impactful projects that drive positive outcomes for both the organization and the industry as a whole.

What would your advice be to someone considering joining the Company?

My advice to someone considering joining Lifescience Dynamics would be to seize every opportunity for learning and growth, and strive for excellence in everything you do. The Company offers a supportive and dynamic environment where hard work and dedication are rewarded, so don't hesitate to take on new challenges, build strong relationships with colleagues, and make meaningful contributions to the Company's mission.
