What three words best describe you?

CAREER PROGRESSION

What's one thing we don't know about you?

I used to play competitive volleyball for many years before moving to the UK for my university education. Although my volleyball days are behind me, I still have an adventurous and athletic personality. I enjoy staying active through a mix of activities depending on the season—whether it's skiing in the winter, running and hiking year-round, or occasionally snorkeling or trying new water sports in the summer.

What is your career high to date?

My career high to date has definitely been presenting at WEPA in Amsterdam. In March 2024, I was given the opportunity to represent Lifescience Dynamics at the market access conference. This incredible opportunity allowed me to showcase our work and insights to industry experts while enhancing my presentation and communication skills. It was an unforgettable experience that pushed my professional boundaries and deepened my confidence.

Why have you joined Lifescience Dynamics?

While pursuing my MSc at UCL, I was required to complete a three-month internship as part of my dissertation. Lifescience Dynamics had a strong partnership with my program and presented their summer internship opportunities to us. From the very first interaction, I was impressed by the professionalism of the Company, the friendliness of my soon-to-be colleagues, and the welcoming company culture. During my internship, I gained invaluable experience and quickly realized the immense value of being part of such a dynamic team. When I was offered a full-time position at the end of my internship, I accepted without hesitation, eager to continue contributing to Lifescience Dynamics and growing alongside the Company.

What are the top three things you enjoy about being a member of the Lifescience Dynamics family?

The close-knit and friendly company culture: Lifescience Dynamics fosters a supportive and collaborative environment

Wonderful colleagues: I am constantly inspired by the mindful, motivated, and genuinely kind team members who make every day enjoyable and fulfilling

Exceptional learning opportunities: The Company provides an abundance of tools and resources that support continuous learning and personal growth

What are you looking forward to in your next step with Lifescience Dynamics?

I'm looking forward to expanding my analytical skills and taking on greater project management responsibilities. This will allow me to further advance my career and enhance my expertise in pharmaceutical consulting.

What would your advice be to someone considering joining the Company?

Lifescience Dynamics is an excellent place to start your career in pharmaceutical consulting! The Company offers a perfect blend of theoretical knowledge and hands-on experience, providing invaluable exposure across a wide range of therapeutic areas. The supportive and collaborative environment ensures you're continually learning and growing.
